PART I

VOTING MACHINES AND TABULATORS

Sec. 9-238. Voting tabulators required. Notification of purchase or discontinuance of use. (a) Except as provided in section 9-272, voting tabulators shall be used at all elections held in any municipality, or in any part thereof, for voting and registering and counting votes cast at such elections for officers, and upon all questions or amendments submitted at such elections. The board of selectmen of each town, the common council of each city and the warden and burgesses of each borough shall purchase or lease, or otherwise provide, for use at elections in each such municipality a number of voting tabulators approved by the Secretary of the State. Different voting tabulators may be provided for different voting districts in the same municipality. Notwithstanding any provision of this subsection to the contrary, the registrars of voters of a municipality may determine the number of voting tabulators that shall be provided for use at any special election in such municipality, provided the registrars shall provide at least one voting tabulator in the municipality or, in a municipality divided into voting districts, at least one voting tabulator in each such district.

(b) Upon the purchase or lease of a voting tabulator for use in any municipality, the officials of such municipality purchasing or leasing the same shall forthwith send notification in writing to the Secretary of the State of the name or make of such tabulator, the name of the person who manufactured the same, the name of the person from whom it was purchased or leased and the date on which it was purchased or leased. No voting tabulator shall be used in an election which, in the opinion of the Secretary of the State, does not conform to the requirements of law, is unsuitable for use in such election or does not comply with the voluntary performance and test standards for voting systems adopted by the Election Assistance Commission pursuant to the Help America Vote Act, P.L. 107-252, 43 USC 15481. When in any municipality the use of a voting tabulator at elections is discontinued because of its age or condition or because it is sold, or for any other reason, such officials shall send written notification to the Secretary of the discontinuance of such tabulator, of the time of and reason for such discontinuance and of the information required in connection with notification of original purchasing or leasing.

(1949 Rev., S. 1192, 1193, 1194; 1951, S. 259b; 1953, 1955, S. 715d; 1957, P.A. 561, S. 1; 1969, P.A. 32; 355, S. 1; P.A. 80-339, S. 1; P.A. 91-7; 91-351, S. 26, 28; P.A. 94-203, S. 3, 12; P.A. 07-194, S. 38; P.A. 11-20, S. 6.)

History: 1969 acts provided for discontinuance of use of old voting machines and provided for additional voting machines according to number of electors and in municipalities having less than 5,000 electors in lieu of additional machine officials may provide sample voting machine ballot labels, effective with respect to all elections held on or after January 1, 1970; P.A. 80-339 substituted "absentee ballots" for "sample voting machine ballot labels" and "emergency paper" for "unofficial" ballots where appearing; P.A. 91-7 divided section into Subsecs. and added provision in Subsec. (a) allowing registrars to determine number of voting machines for special elections; P.A. 91-351 changed effective date of P.A. 91-7 from October 1, 1991, to July 1, 1991; P.A. 94-203 amended Subsec. (a) to require registrars to exclude 75% of names of electors

residing in institutions when calculating required number of voting machines, effective July 1, 1994; P.A. 07-194 replaced “voting machines” with “voting tabulators”, deleted procedures re voting machines, required tabulators to comply with voluntary performance and test standards for voting systems adopted by the Election Assistance Commission and made technical changes; P.A. 11-20 replaced “voting machines” with “tabulators” and deleted reference to Sec. 9-271 in Subsec. (a), effective May 24, 2011.

Sec. 9-238a. Report to Secretary of number of voting tabulators. During the first week of February in each year, the town clerk of each town shall notify the Secretary of the State, on a form provided by said Secretary, of the total number of voting tabulators in such town and, in towns divided into voting districts, in addition, the same information for each voting district. If the number of tabulators listed in such notification is less than the number required under section 9-238, the town clerk shall include in such notification an explanation of the discrepancy. Each such clerk shall also file a duplicate copy of such notification with the officials who are required to provide voting tabulators in the clerk's municipality under section 9-238.

(1961, P.A. 47; P.A. 87-509, S. 9, 24; P.A. 97-154, S. 23, 27; P.A. 11-20, S. 7.)

History: P.A. 87-509 required town clerk to include in notification the total number of names on each enrollment list and total number of unaffiliated electors in the town; P.A. 97-154 required total number of names reported to Secretary of the State to be on “active” registry list, effective July 1, 1997; P.A. 11-20 eliminated requirement re reporting of number of electors, replaced “machines” with “tabulators” and made technical changes, effective May 24, 2011.

Sec. 9-239. Payment for voting tabulators. The fiscal authority in each municipality shall authorize payment of the bill incurred for the purchase or lease or other method of acquisition of an adequate number of voting tabulators incurred by the officials responsible for providing the same under the provisions of section 9-238.

(1955, S. 716d; 1957, P.A. 561, S. 2; P.A. 11-20, S. 1.)

History: Pursuant to P.A. 11-20, “machines” was changed editorially by the Revisors to “tabulators”, effective May 24, 2011.

Sec. 9-240. Provision of voting tabulators and booths. The board of selectmen in each town, unless otherwise provided by law, shall provide or may authorize the registrars to provide a suitable room or rooms and voting tabulator booths for holding all elections. The interior of the booths shall be secure from outside observation. Said board shall provide for each polling place, in accordance with the requirements of section 9-238, one or more voting tabulators in complete working order, and shall preserve and keep them in repair and have the custody of the voting tabulators, and the care and custody of the furniture and equipment of the polling place, when not in use at an election.

(1949 Rev., S. 1054, 1195; 1953, S. 717d; 1957, P.A. 561, S. 3; 1967, P.A. 119, S. 3; P.A. 11-20, S. 1.)

History: 1967 act deleted provision for public notice of location of rooms and voting machine booths; pursuant to P.A. 11-20, “machine” and “machines” were changed editorially by the Revisors to “tabulator” and “tabulators”, respectively, effective May 24, 2011.

Sec. 9-240a. Periodic examination of voting tabulators. Not more than two hundred ten days nor less than thirty days prior to each regular election for state officers, each voting tabulator to be used in the next succeeding regular election, including each additional tabulator required under section 9-238, shall be examined by the company which manufactured the same or its successor or, with the approval of the Secretary of the State, by persons skilled in the mechanics and operation of such tabulator, for the purpose of determining that such tabulator is in sound operable condition for use in such election. Arrangements for such examination shall be made by the officials responsible for providing voting tabulators under section 9-238. The company or person making such examination shall file a report with respect to each tabulator with the Secretary of the State and with such officials, indicating whether or not such tabulator is in sound operable condition. When, as a result of any such examination, a tabulator is found not to be in sound operable condition, such officials shall have such tabulator repaired, or shall provide a voting tabulator in sound operable condition to replace the tabulator found inoperable. The cost for such examination in each town shall be paid by such town. Failure to cause the examination of a voting tabulator, as herein required, shall not, of itself, prevent the use of such tabulator in any election.

History: 1969 act deleted obsolete language and required examination of additional machines required under Sec. 9-238; P.A. 87-382 required examination of machines not more than 210 days or less than 30 days before election rather than “during the period from seven months to one month” before election; P.A. 11-20 replaced

“machine” with “tabulator” and “machines” with “tabulators” and made technical changes, effective May 24, 2011.

Sec. 9-241. Examination and approval of tabulators by Secretary. Subsequent alteration made by voting tabulator companies. Use of hole-punch voting tabulators prohibited. Regulations. Agreement with The University of Connecticut or Connecticut State University System. (a) Any person owning or holding an interest in any voting tabulator, as defined in subsection (w) of section 9-1, may apply to the Secretary of the State to examine such tabulator and report on its accuracy and efficiency. The Secretary of the State shall examine the tabulator and determine whether, in the Secretary's opinion, the kind of tabulator so examined (1) meets the requirements of section 9-242, (2) can be used at elections, primaries and referenda held pursuant to this title, and (3) complies with applicable standards for electronic voting tabulators. If the Secretary of the State determines that the tabulator can be so used, such tabulator may be adopted for such use. No tabulator not so approved shall be so used. Each application shall be accompanied by a fee of one hundred dollars and the Secretary of the State shall not approve any tabulator until such fee and the expenses incurred by the Secretary in making the examination have been paid by the person making such application. Any voting tabulator company that has had its voting tabulator approved and that subsequently alters such tabulator in any way shall provide the Secretary of the State with notice of such alterations, including a description thereof and a statement of the purpose of such alterations. If any such alterations appear to materially affect the accuracy, appearance or efficiency of the tabulator, or modify the tabulator so that it can no longer be used at elections, primaries or referenda held pursuant to this title, at the discretion of the Secretary of the State, the company shall submit such alterations for inspection and approval, at its own expense, before such altered tabulators may be used. The Secretary of the State may adopt regulations, in accordance with the provisions of chapter 54, concerning examination and approval of voting tabulators under this section. No voting tabulator that records votes by means of holes punched in designated voting response locations may be approved or used at any election, primary or referendum held pursuant to this title.

(b) The Secretary of the State may enter into an agreement with The University of Connecticut or a member of the Connecticut State University System to perform or assist in performing the following functions: (1) Any technical review, testing or research associated with the certification of voting equipment, (2) any technical review, testing or research associated with the decertification of voting equipment, (3) the development of standards for the use of voting equipment during any election, primary or referenda, (4) the development of standards to ensure the accuracy of voting equipment, (5) the development of standards and procedures for the security, set-up and storage of voting equipment, (6) the development of standards, procedures and oversight of post-election audits, (7) the development of standards for recanvass

procedures to ensure the accuracy and reliability of any such recanvass, (8) the development of standards and procedures for the testing, security and use of an election management system, (9) the development of standards and procedures for the programming of ballots and voting equipment, (10) research and analysis of data formats for ballot programming and election-related electronic data, and (11) the development of any other standards necessary to protect the integrity of voting equipment.

History: P.A. 73-304 provided for notice to secretary of the state by any voting machine company of alterations to already approved machines under certain conditions; P.A. 84-319 amended section to reflect changes made in Secs. 9-241a and 9-242; P.A. 93-384 authorized the secretary of the state to adopt regulations re examination and approval of machines, effective June 29, 1993; P.A. 03-7 prohibited use of voting machines that record votes by means of holes punched in designated locations and made technical changes, effective April 29, 2003; P.A. 05-235 inserted Subdiv. (1) and (2) designators, added Subdiv. (3) re compliance of electronic voting machines with standards adopted by Voting Technology Standards Board and made technical changes; P.A. 07-194 designated existing provisions as Subsec. (a) and added Subsec. (b) re agreement with The University of Connecticut or member of Connecticut State University system, effective July 5, 2007; P.A. 11-20 amended Subsec. (a) by replacing “machine” with “tabulator” and “machines” with “tabulators”, by deleting former Subdiv. (3) re Voting Technology Standards Board and by adding new Subdiv. (3) re compliance with applicable standards for electronic voting tabulators, effective May 24, 2011; P.A. 11-173 amended Subsec. (a) by deleting former Subdiv. Sec. 9-242. Voting tabulator and direct recording electronic voting tabulator construction requirements. Attribution of unknown votes for cross-endorsed candidates. (a) A voting tabulator approved by the Secretary of the State shall be so constructed as to provide facilities for voting for the candidates of at least nine different parties or organizations. It shall permit voting in absolute secrecy. It shall be provided with a lock by means of which any illegal movement of the voting or registering mechanism is absolutely prevented. Such tabulator shall be so constructed that an elector cannot vote for a candidate or on a proposition for whom or on which the elector is not lawfully entitled to vote.

(b) It shall be so constructed as to prevent an elector from voting for more than one person for the same office, except when the elector is lawfully entitled to vote for more

than one person for that office, and it shall afford the elector an opportunity to vote for only as many persons for that office as the elector is by law entitled to vote for, at the same time preventing the elector from voting for the same person twice. It shall be so constructed that all votes cast will be registered or recorded by the tabulator. In the event that a candidate is cross endorsed and an elector casts more than one vote for such candidate, such vote shall be attributed by the head moderator to the endorsing parties as provided for in this subsection. The head moderator shall (1) determine the percentage of all attributable votes the candidate received that are attributable to each endorsing party, (2) determine the number of ballots upon which an elector voted for the candidate more than once, and (3) apply the percentage determined under subdivision (1) of this subsection for an endorsing party to the total determined under subdivision (2) of this subsection. The resulting number from the calculation under subdivision (3) of this subsection shall be the number of votes the head moderator attributes to the endorsing party associated with the percentage used in the calculation under subdivision (3) of this subsection. The head moderator shall repeat the calculation in subdivision (3) of this subsection for each endorsing party. For any result under subdivision (3) of this subsection that is a fractional number, the head moderator shall round such result to the nearest whole number, provided a half number shall be rounded to the next highest whole number, and provided further that each such endorsing party with a percentage greater than zero under subdivision (1) of this subsection shall receive at least one such vote, with the remaining parties receiving a proportional reduction in votes, if necessary. If any vote remains that can not be evenly attributed to such parties, such vote shall be attributed to the endorsing party with the most votes.

(c) Notwithstanding the provisions of subsection (b) of this section, the Secretary of the State may approve a voting tabulator which requires the elector in the polls to place the elector's ballot into the recording device and which meets the voluntary performance and test standards for voting systems adopted by (1) the Federal Election Commission on January 25, 1990, as amended from time to time, or (2) the Election Assistance Commission pursuant to the Help America Vote Act of 2002, P.L. 107-252, 42 USC 15481-85, as amended from time to time, whichever standards are most current at the time of the Secretary of the State's approval, and regulations which the Secretary of the State may adopt in accordance with the provisions of chapter 54, provided the voting tabulator shall (A) warn the elector of overvotes, (B) not record overvotes, and (C) not record more than one vote of an elector for the same person for an office. In the event that a candidate is cross endorsed and an elector casts more than one vote for such candidate, such vote shall be attributed by the head moderator to the endorsing parties as provided for in this subsection. The head moderator shall (i) determine the percentage of all attributable votes the candidate received that are attributable to each endorsing party, (ii) determine the number of ballots upon which an elector voted for the candidate more than once, and (iii) apply the percentage determined under subparagraph (C)(i) of this subsection for an endorsing party to the total determined under subparagraph (C)(ii) of this subsection. The resulting number from the calculation under subparagraph (C)(iii) of this subsection shall be the number of votes

the head moderator attributes to the endorsing party associated with the percentage used in the calculation under subparagraph (C)(iii) of this subsection. The head moderator shall repeat the calculation in subparagraph (C)(iii) of this subsection for each endorsing party. For any result under subparagraph (C)(iii) of this subsection that is a fractional number, the head moderator shall round such result to the nearest whole number, provided a half number shall be rounded to the next highest whole number, and provided further that each such endorsing party with a percentage greater than zero under subparagraph (C)(i) of this subsection shall receive at least one such vote, with the remaining parties receiving a proportional reduction in votes, if necessary. If any vote remains that can not be evenly attributed to such parties, such vote shall be attributed to the endorsing party with the most votes.

(d) Any direct recording electronic voting tabulator approved by the Secretary of the State for an election or primary held on or after July 1, 2005, shall be so constructed as to:

(1) (A) Contemporaneously produce an individual, permanent, paper record containing all of the elector's selections of ballot preferences for candidates and questions or proposals, if any, prior to the elector's casting a ballot, as set forth in this subsection, and (B) produce at any time after the close of the polls a voting tabulator generated, individual, permanent, paper record of each such elector's selections of ballot preferences for candidates and questions or proposals, if any. Both the contemporaneously produced paper record and the voting tabulator generated paper record of each elector's selections of ballot preferences shall include a voting tabulator generated unique identifier that can be matched against each other and which preserves the secrecy of the elector's ballot as set forth in subdivision (4) of this subsection;

(2) Provide each elector with an opportunity to verify that the contemporaneously produced, individual, permanent, paper record accurately conforms to such elector's selection of ballot preferences, as reflected on the electronic summary screen, and to hear, if desired, an audio description of such electronic summary screen, for the purpose of having an opportunity to make any corrections or changes prior to casting the ballot. If an elector makes corrections or changes prior to casting the ballot, the voting tabulator shall void such contemporaneously produced paper record, contemporaneously produce another paper record containing such corrections or changes and provide the elector with another opportunity to verify ballot preferences in accordance with the provisions of this subdivision. As used in this section, "electronic summary screen" means a screen generated by a direct recording electronic voting tabulator that displays a summary of an elector's selections of ballot preferences for candidates and questions or proposals, if any, at an election or primary;

(3) Provide that a ballot shall be deemed cast on the voting tabulator at the time that an elector's contemporaneously produced, individual, permanent, voter-verified paper record, containing all of the elector's final selections of ballot preferences, is (A) deposited inside a receptacle designed to store all such paper records produced by such voting tabulator on the day of the election or primary, and (B) the elector's selection of

ballot preferences is simultaneously electronically recorded inside the voting tabulator for the purpose of (i) being electronically tabulated immediately after the polls are closed on the day of the election or primary, and (ii) producing, on such other day as required under section 9-242b, a voting tabulator generated, individual, permanent, paper record of each such elector's selections of ballot preferences for candidates and questions or proposals, if any;

(4) Except as otherwise provided in subdivision (1) of section 9-242b, secure the secrecy of each such elector's ballot by making it impossible for any other individual to identify the elector in relationship to such elector's selection of ballot preferences at the time that the elector (A) selects ballot preferences; (B) verifies the accuracy of the electronic summary screen by comparing it to the contemporaneously produced, individual, permanent, paper record or the audio description of such electronic summary screen, prior to casting a ballot; (C) makes corrections or changes by reselecting ballot preferences and verifies the accuracy of such preferences in accordance with the provisions of subdivision (2) of this subsection prior to casting a ballot; and (D) casts the ballot; and at the time that all electors' ballots are canvassed, recanvassed or otherwise tallied to produce a final count of the vote for candidates and questions or proposals, if any, whether through the electronic vote tabulation process or through the manual count process of each elector's contemporaneously produced, individual, permanent, voter-verified paper record, as set forth in section 9-242b; and

(5) (A) Be accessible to blind or visually impaired persons by providing each elector, if desired by the elector, an audio description of the contemporaneously produced individual, permanent, paper record containing all of the elector's selections of ballot preferences, in addition to an audio description of the electronic summary screen and comply with such additional standards of accessibility included in regulations that the Secretary of the State may adopt in accordance with the provisions of chapter 54.

(B) Notwithstanding the provisions of subparagraph (A) of this subdivision, on or before June 30, 2007, the Secretary of the State may approve an electronic voting tabulator that does not comply with the provisions of said subparagraph if (i) the Secretary determines that there are no electronic voting tabulators available for purchase or lease at the time of such approval that are capable of complying with said subparagraph (A), (ii) the electronic voting tabulator complies with the provisions of subdivisions (1) to (4), inclusive, of this subsection, and (iii) the person applying to the Secretary for approval of the electronic voting tabulator agrees to include a provision in any contract for the sale or lease of such voting tabulators that requires such person, upon notification by the Secretary that modifications to such tabulators that would bring the tabulators into compliance with said subparagraph (A) are available, to (I) so modify any electronic voting tabulators previously sold or leased under such contract in order to comply with said subparagraph (A), and (II) provide that any electronic voting tabulators sold or leased after receipt of such notice comply with said subparagraph (A). No voting tabulator approved under this subparagraph shall be used

on or after July 1, 2007, unless it has been modified to comply with the provisions of subparagraph (A) of this subdivision.

Sec. 9-242b. Procedures for use of direct recording electronic voting tabulators. The following procedures shall apply to any election or primary in which one or more direct recording electronic voting tabulators are used:

- (1) Any elector who requires assistance by reason of blindness, disability, or inability to read or write shall have the right to request assistance inside the voting booth by a person of the elector's choice in accordance with 42 USC 1973aa-6, as amended from time to time, or section 9-264.
- (2) A canvass of the votes shall take place inside the polling place immediately following the close of the polls on the day of the election or primary in accordance with the requirements of chapter 148. With respect to direct recording electronic voting tabulators, any such canvass shall be an electronic vote tabulation of all of the votes cast on each such voting tabulator for each candidate and question or proposal, and the moderator shall attach a printout of such electronic vote tabulation to the tally sheets. The moderator shall then add together all of the votes recorded on each voting tabulator in use at the polling place, whether or not such voting tabulators were direct recording electronic voting tabulators, to produce a cumulative count within the polling place of all candidates and any questions or proposals appearing on the ballot in the election or primary. Any member of the public shall have a right to be present in the polling place to observe the canvass of the votes beginning as soon as the polls are declared closed by the moderator and continuing throughout the canvass of the votes of each voting tabulator until the final canvass of all of the votes cast on all of the voting tabulators in use in the polling place are added together for each candidate and question or proposal and publicly announced and declared by the moderator.
- (3) If a recanvass of the votes is required pursuant to chapter 148, the recanvass officials shall, in addition to the other requirements of said chapter, conduct a manual tally of the individual, permanent, voter-verified, paper records contemporaneously produced by each direct recording electronic voting tabulator used within the geographical jurisdiction that is subject to such recanvass. The manual tally conducted for the recanvass shall be limited to the particular candidates and questions or proposals that are subject to recanvass. If the manual tabulation of such contemporaneously produced paper records does not reconcile with the electronic vote tabulation of a particular direct recording electronic voting tabulator or tabulators, such contemporaneously produced paper records shall be considered the true and correct record of each elector's vote on such electronic voting tabulator or tabulators and shall be used as the official record for purposes of declaring the official election results or for purposes of any subsequent recanvass, tally or election contest conducted pursuant to chapters 148 to 153, inclusive. If any of the contemporaneously produced individual,

permanent, voter-verified paper records are found to have been damaged in such manner as they are unable to be manually tallied with respect to the ballot positions that are the subject of the recanvass, each such damaged record shall be matched against the voting tabulator generated, individual, permanent, paper record produced by the voting tabulator bearing the identical tabulator-generated unique identifier as the damaged record and, in such instance, shall be substituted as the official record for purposes of determining the final election results or for purposes of any subsequent recanvass, tally or election contest.

(4) Notwithstanding the provisions of section 9-311, the Secretary of the State may order a discrepancy recanvass under said section of the returns of an election or a primary for a district office, a state office or the office of elector of President and Vice-President of the United States, if the Secretary has reason to believe that discrepancies may have occurred that could affect the outcome of the election or primary. Any such discrepancy recanvass may be conducted of the returns in any or all voting districts in (A) the district in which an election or primary is held, in the case of an election or primary for a district office, or (B) the state, in the case of an election or primary for a state office or the office of elector of President and Vice-President of the United States or a presidential preference primary, whichever is applicable. As used in this subdivision, “district office” and “state office” have the same meanings as provided in section 9-372.

(5) Not later than five business days after each election in which a direct recording electronic voting tabulator is used, the registrars of voters or their designees, representing at least two political parties, shall conduct a manual audit of the votes recorded on at least (A) two direct recording electronic voting tabulators used in each assembly district, or (B) a number of direct recording electronic voting tabulators equal to fifty per cent of the number of voting districts in the municipality, whichever is less. Not later than five business days after a primary in which a direct recording electronic voting tabulator is used, the registrar of voters of the party holding the primary shall conduct such a manual audit by designating two or more individuals, one of whom may be the registrar, representing at least two candidates in the primary. The tabulators audited under this subdivision shall be selected in a random drawing that is announced in advance to the public and is open to the public. All direct recording electronic voting tabulators used within an assembly district shall have an equal chance of being selected for the audit. The Secretary of the State shall determine and publicly announce the method of conducting the random drawing, before the election. The manual audit shall consist of a manual tabulation of the contemporaneously produced, individual, permanent, voter-verified, paper records produced by each voting tabulator subject to the audit and a comparison of such count, with respect to all candidates and any questions or proposals appearing on the ballot, with the electronic vote tabulation reported for such voting tabulator on the day of the election or primary. Such audit shall not be required if a recanvass has been, or will be, conducted on the voting tabulator. Such manual audit shall be noticed in advance and be open to public observation. A reconciliation sheet, on a form prescribed by the Secretary of the State,

that reports and compares the manual and electronic vote tabulations of each candidate and question or proposal on each such voting tabulator, along with any discrepancies, shall be prepared by the audit officials, signed and forthwith filed with the town clerk of the municipality and the Secretary of the State. If any contemporaneously produced, individual, permanent, voter-verified, paper record is found to have been damaged, the same procedures described in subdivision (3) of this section for substituting such record with the voting tabulator generated, individual, permanent, paper record produced by the voting tabulator bearing the identical tabulator generated unique identifier as the damaged record shall apply and be utilized by the audit officials to complete the reconciliation. The reconciliation sheet shall be open to public inspection and may be used as prima facie evidence of a discrepancy in any contest arising pursuant to chapter 149. If the audit officials are unable to reconcile the manual count with the electronic vote tabulation and discrepancies, the Secretary of the State shall conduct such further investigation of the voting tabulator malfunction as may be necessary for the purpose of reviewing whether or not to decertify the voting tabulator or tabulators and may order a recanvass in accordance with the provisions of subdivision (4) of this section.

(6) The individual, permanent, voter-verified, paper records contemporaneously produced by any direct recording electronic voting tabulator in use at an election or primary held on or after July 1, 2005, shall be carefully preserved and returned in their designated receptacle in accordance with the requirements of section 9-266 or 9-310, whichever is applicable, and may not be opened or destroyed, except during recanvass or manual audit as set forth in this section, for one hundred eighty days following an election or primary that does not include a federal office, pursuant to section 9-310, or for twenty-two months following an election or primary involving a federal office, pursuant to 42 USC 1974, as amended from time to time.

(7) Nothing in this section shall preclude any candidate or elector from seeking additional remedies pursuant to chapter 149.

(8) After an election or primary, any voting tabulator may be kept locked for a period longer than that prescribed by sections 9-266, 9-310 and 9-447, if such an extended period is ordered by either a court of competent jurisdiction or the State Elections Enforcement Commission. Either the court or said commission may order an audit of such voting tabulators to be conducted by such persons as the court or said commission may designate.

(B) re alternative determination of number of voting machines to be audited, effective July 8, 2005; P.A. 11-20 replaced “machine” with “tabulator”, “machines” with “tabulators” and “machine-generated” with “tabulator-generated” and, in Subdiv. Sec. 9-261. Process of voting. (a) In each primary, election or referendum, when an elector has entered the polling place, the elector shall announce the elector's street address, if any, and the elector's name to the official checker or checkers in a tone sufficiently loud and clear as to enable all the election officials present to hear the same. Each elector who registered to vote by mail for the first time on or after January 1, 2003, and has a “mark” next to the elector's name on the official registry list, as required by section 9-23r, shall present to the official checker or checkers, before the elector votes, either a current and valid photo identification that shows the elector's name and address or a copy of a current utility bill, bank statement, government check, paycheck or other government document that shows the name and address of the elector. Each other elector shall (1) present to the official checker or checkers the elector's Social Security card or any other preprinted form of identification which shows the elector's name and either the elector's address, signature or photograph, or (2) on a form prescribed by the Secretary of the State, write the elector's residential address and date of birth, print the elector's name and sign a statement under penalty of false statement that the elector is the elector whose name appears on the official checklist. Such form shall clearly state the penalty of false statement. A separate form shall be used for each elector. If the elector presents a preprinted form of identification under subdivision (1) of this subsection, the official checker or checkers shall check the name of such elector on the official checklist, manually on paper or electronically. If the elector completes the form under subdivision (2) of this subsection, the registrar of voters or the assistant registrar of voters, as the case may be, shall examine the

information on such form and either instruct the official checker or checkers to check the name of such elector on the official checklist, manually on paper or electronically, or notify the elector that the form is incomplete or inaccurate.

(b) In the event that an elector is present at the polling place but is unable to gain access to the polling place due to a temporary incapacity, the elector may request that the ballot be brought to him or her. The registrars of voters or the assistant registrars of voters, as the case may be, shall take such ballot, along with a privacy sleeve to such elector. The elector shall show identification, in accordance with the provisions of this section. The elector shall forthwith mark the ballot in the presence of the election officials in such manner that the election officials shall not know how the ballot is marked. The elector shall place the ballot in the privacy sleeve. The election officials shall mark the elector's name on the official voter list, manually on paper or electronically, as having voted in person and deliver such ballot and privacy sleeve to the voting tabulator where such ballot shall be placed into the tabulator, by the election official, for counting. The moderator shall record such activity in the moderator's diary.

(c) In each polling place in which two or more parties are holding primaries in which unaffiliated electors are authorized to vote, pursuant to section 9-431, an unaffiliated elector shall also announce to the separate table of the official checker or checkers for unaffiliated electors the party in whose primary the elector chooses to vote and the official checker or checkers shall note such party when checking such elector's name on the checklist of unaffiliated electors, manually on paper or electronically, provided such choice shall not alter the elector's unaffiliated status.

(d) In each polling place in which two or more parties are holding primaries in which unaffiliated electors are authorized to vote or in which one party is holding a primary in which unaffiliated electors are authorized to vote for some but not all offices to be contested at the primary, the official checker or checkers shall give to each elector checked manually on paper or electronically, a receipt provided by the registrars of voters, in a form prescribed by the Secretary of the State, specifying either (1) the party with which the elector is enrolled, if any, or (2) in the case of an unaffiliated elector, the party in whose primary the elector has so chosen to vote, and whether the elector is authorized to vote for only a partial ballot.

(e) If not challenged by anyone lawfully present in the polling place, the elector shall be permitted to pass to the separated area to receive the ballot. The elector shall give any receipt the elector has received to a ballot clerk who shall give the elector a ballot to vote only in the primary of the party specified by the receipt. The elector shall be permitted into the voting booth area, and shall then register his or her vote in secret. Having voted, the elector shall immediately exit the voting booth area and deposit the ballot in the voting tabulator and leave the room. No elector shall remain within the voting booth longer than the time necessary to complete the ballot, and, if the elector refuses to leave such booth after completing the ballot, the elector shall at once be removed by the election officials upon order of the moderator. Not more than one elector at a time shall be permitted to be within the enclosed space which the elector

occupies while the elector completes his or her ballot, provided an elector may be accompanied within such enclosed space by one or more children who are fifteen years of age or younger and supervised by the elector, if the elector is the parent or legal guardian of such children. If any elector, after entering the voting booth area, asks for further instruction concerning the manner of voting, the election officials shall give such instructions or directions to the elector; but no election official instructing or assisting an elector, except as provided in section 9-264, shall look at the ballot in such a way as to see the elector's markings or in any manner seek to influence any such elector in the casting of the elector's vote.
